

The Published Admission Number for entry to the Reception Year (PAN)

The admission number indicating the minimum number of places available in the Reception year is currently published as **60**.

Children starting school for the first time in September (the 'normal' admissions round) will be admitted up to this PAN, without condition, in accordance with the School Admissions Code.

The Admissions Authority is entitled to increase the PAN at any time, where it determines that more places can be made available without prejudicing the efficient delivery of education or the efficient use of resources. Any increase to the PAN will be notified as an alteration to this statement.
